

Portable equipment

Introducing the ET9000 series portable saw

Low cost

saw option offered
alone or with our
convenient
portability packages

Danfoss is pleased to offer the ET9000 series portable saw. This low cost saw option features a 4.5" micro-slotted blade that delivers clean cuts. It cuts up to 3/4" 2-wire braided hose and its light weight makes it ideal for portable applications.

We are also offering this saw in our convenient portability packages, which include the saw, blade, and our crimper portability kit. The portability kit features two easy grip handles with mounting hardware, a longer hose assembly, and our FF series quick disconnect couplings for quick and easy connection and disconnection of the pump.

Part Numbers

ET9000-45-110 110V portable saw

ET9000C-45-MS 4.5" micro-slotted blade

Portability Packages

ET1187-010 Includes ET1187-001 crimp machine, 110v pump, ET4020TP-0002 tooling package, ET9000-45-110 saw and blade, and crimper *portability kit

ET1000-022 Includes ET1000-001 crimp machine, 110v pump, ET1000TP-1002 tooling package, ET9000-45-110 saw and blade, and crimper *portability kit

*Portability Kit features two easy grip handles with mounting hardware, a longer hose assembly, and our FF series quick disconnect couplings

Specifications

Dimensions: 18" high x 10" wide x 6" deep

Weight: 12 lbs

Capabilities

Braided hose: -4 thru -12

Features

- Includes 4.5" micro slotted knife blade
- Cutting capacity: 3/4" ID x 2 wire braided hydraulic hose
- 7.5 AMP motor delivers a no-load speed of 10,000 RPM
- 2 mounting options: includes heavy duty clamp for portable applications and 4 pre-drilled holes for mounting
- Pegs are marked with size recommendations

Benefits

- Lightweight and ideal for cutting hose in the field
- Micro-slotted knife blades delivers clean cuts
- Convenient package options include portable crimper and crimper portability kit
- Low cost and effective solution for light duty, automotive, agricultural, high performance automotive, maintenance departments, municipalities, and mobile applications
